## A GOOD TOWN.

Recently it has been very noticeable how often we hear Crossville spoken of as the best town in this section for many counties around.

There is a reason: First our merchants realize they have a wide field to draw from and for that reason carry large and varied stock. They sell at close margins, which tends to widen the distance from which they draw trade.

The people for many miles around very many of them, have learned that they "can get it at Crossville." That means they do not hesitate to come here for fear they will not find what they want. Again, they come with the full assurance that the price will be as good or better than they can get the same article for elsewhere.

It is a very noticeable fact that far less money is leaving this section now going to the mail order houses than was the case a few years ago. That is one of the strongest possible evidences that prices are low. There are some people yet who have something to learn along the lines of how good a place Crossville is in which to buy, but they are learning and we confidently predict that business will grow with our merchants in the years to come with greater strides than in the past. Crossville is a good town and "there is a reason."

## SOME GALL.

If all the road organizations of the state had as much energy as some of them have gall, Tennessee would be a complete net work of good roads within a few years.

We are in receipt of a communication from a certain county of the state that says it has just sold \$250,000 in road bonds at par, but does not feel that the county can stand the enormous expense of paying a dollar or two for the Chronicle to have us announce that they are looking for contractors to do the contemplated work on their roads.

They say: "We appeal to your good roads patriotism to insert the attached as a news item in your paper giving it as conspicuous a heading as possible." Did any person ever see a more monumental piece of gall and affrontery than that? Nothing to surpass it has ever come to our notice and we do not recall anything that equals it.

They have \$250,000 to spend on roads, but they are so poor, such paupers, that they have to beg the county press to publish free their call for contractors to do the work. The county that makes this pauper request is in West Tennessee and is one among the rich counties of the state.

That road committee is either doomed to make a most rousing success or an ignominious failure, if they continue along the lines they have started provided GALL is the main constituent that leads to either goal.

## WHAT CRIME COSTS.

Few people realize what the real monetary cost to the taxpayers of this county crime is. On referring to the report of the county judge for the past quarter it will be seen that the court costs and sheriff and jail fees amount close to \$1,000. Circuit court meets three times a year, which means that the actual cost to the taxpayers of this county is close to \$3,000 a year.

That is a very heavy tax when we come to consider our population is not over ten thousand. It means that

WISHED SHE  
COULD DIE

And Be Free From Her Troubles,  
but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering, from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework."

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardui, the woman's tonic, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all druggists.

every, man, woman and child in the county contributes about thirty cents a year to try to suppress crime.

While the cost to the taxpayers is considerable, that is not the worst feature of the thing. The fact that such lawlessness goes unpunished is the worst feature and the one that should most interest law-abiding people.

That crime is not suppressed to any thing like the extent it should be is too well known to admit of dispute. That the real fault lies with the people as a whole, is beyond question.

The larger part of the blame lies with those who pretend to be law abiding and those who are church members. It is really shocking and discouraging to see what a tremendous lack of courage and backbone there is among the church members, and others who are classed as law abiding, who do not claim allegiance to any church. It will not do for any one to deny these facts for they are beyond dispute and the editor of the Chronicle can tell numerous instances where church members have "skulked in their tents" to avoid taking a stand against lawlessness.

Some people claim that the courts pay their way by collecting from the law violators enough to pay the running expenses. That is a mistake, which can be easily demonstrated by referring to the books of the circuit court.

Even if that statement was true there remains the \$500 or more that goes to the sheriff and for jail expenses. That would mean at least \$1,500 a year worse than thrown away.

Think of the roads that could be built and the schools that could be conducted with what it costs to prosecute the criminals of this county one year. We say prosecute, for it is rare that any person is convicted, because of hung juries. Think of the juror who refused to convict a bootlegger at the last term of court when two men swore positively they bought the whiskey of the defendant and the defendant did not go on the witness stand nor introduce a single witness to disprove the charges. It is just such men and others who are just as bad but not as brazen, who turn the criminals loose on society.

Until juries rise to the proper height of citizenship and do their duty without fear or favor, conditions will grow little better.

Some have expressed the hope that the new jury commission law will help greatly. It is to be hoped that such will prove to be the case. It will be the case if the right kind of men are chosen for jurors, but if the commission grows careless or heedless in the selection of jurors, there will be little improvement.

After all, as we said before, the whole matter rests with the law abiding and church member people more than with any other class.

The Sequatchie county authorities appealed to C. E. James, president of the Short Route Dixie Highway, to build their road through the county with the \$50,000 recently voted by the court of that county. Mr. James accepted the honor at once and promised the Sequatchie county people that he would have "dirt flying" within two weeks.

That sounds like business of the kind that has plenty of buzz in it.

The old saying that every cloud has a silver lining has been again demonstrated in the utterances of the Colum-
